# MIDWEST TECHNOLOGY EXCHANGE

MAY 8-10, 2011  
HILTON OMAHA  
OMAHA, NEBRASKA

The Midwest Technology Exchange (mtechx) is a collaborative conference focusing on the development and commercialization of Midwestern technologies which have been developed in collaboration with the U.S. Army Medical Research and Materiel Command (USAMRMC) and the Telemedicine and Advanced Technology Research Center (TATRC). This conference will be an inclusive two-day meeting that will bring together Army funded principal investigators in the Midwest region, technology transfer experts, company representatives, venture capitals, economic developers, military and civilian experts to collaborate on advanced methods to achieve tangible commercial success and develop an infrastructure to help advance technology development and commercialization of Army funded projects in the Midwest. For more information and registration visit [www.mtechx.org](http://www.mtechx.org).
